

November 2, 2022

To Residents, Family and Friends:

Good afternoon!!

It's a beautiful day and we have had several just like it recently. It is so nice and there is even some rain possible!

Homestead Health Center vaccinated all residents for flu and pneumonia over the past couple of weeks. The facility has not had a case of COVID among residents. Staff has had one case. The county transmission rate is back up to high.....so caution is the word.

After some thought, Homestead Health Center will be hosting the annual Christmas Dinner this year. Due to the pandemic, we missed a couple of years. **The Christmas dinner will be held on December 8 at 6:00 pm. Residents are able to invite two adult guests. Reservations should be into the facility no later than November 28, 2022. Please make reservations with either Ashley Mallory (ext. 230) or Emily Oberholzer (ext. 224).**

Homestead is currently brushing up on the new regulations taking effect October 24th. There are several other 'projects' going on. Please pray for wisdom and guidance, provision and patience as Homestead prepares for 2023.

Thank you for your support. It is appreciated. Homestead Health Center has a great staff who are caring and compassionate. We never dreamed the past 3 years would ever happen. It has been a wild ride. Thankfully, we have survived.

Hope to see you at the Christmas Dinner! Have a wonderful November and a blessed Thanksgiving.

Elizabeth (Beth) Howarth, Administrator
